

DataQual — Advanced Version Technical Specification Report

DETAILED SPECIFICATION OF PLATFORM ARCHITECTURE, METRICS & COMPLETE CODEBASE REPOSITORY

1. Advanced Version Platform Architecture & Audit Resolution

DataQual Advanced Version is a production-grade MLOps platform for real-time data annotation quality intelligence. This version resolves all audit findings across code ingestion, statistical metric rendering, modal interactivity, and design aesthetics.

Key Fixes & Architectural Upgrades:

- **Flexible Schema Key Ingestion:** ``importData`` uses case-insensitive alias matching (``Full Name``, ``Email``, ``Role``, ``Specialization``, ``Seniority``, ``Languages``, ``Accuracy %``, ``Throughput``, ``Hourly Rate``, ``Status``, ``F1-Score``, ``Krippendorff's Alpha``, ``Honeypot Pass Rate``) preventing silent fallback errors on CSV uploads.
- **Krippendorff's Alpha (α) Statistical Consistency:** Restored Krippendorff's Alpha (α) as the primary multi-annotator (>2 evaluators) agreement metric across all statistical UI components.
- **Cmd+K Command Palette Modal:** Added a fully functional Command Palette modal (``CommandPaletteModal``) for fast keyboard navigation across all 10 platform tabs.
- **Shared Safety Reset Modal:** Lifted ``showResetModal`` into `DataProvider` context and connected both `TopBar` and `DataInputPage` Reset buttons.
- **Interactive Dataset Export:** Added a ``JSON`` dataset exporter (``exportData()``) in `Data Input` allowing teams to back up annotated rosters.
- **Dark Minimalist Design System:** Applied an obsidian midnight canvas (``#070a12``), glassmorphic elevated cards (``#0e1424``), radial top glow, and Inter typography.

2. 5 Concurrent Enterprise AI Projects Specification

Project ID & Name	Category	Items	Custom Domain Parameters
proj-1: Autonomous Driving CV	Computer Vision	25,000	0.85 IoU, 4K @ 30fps, LiDAR + Stereo, 30% Occlusion
proj-2: LLM Medical NLP	NLP / Healthcare	18,500	4096 Tokens, ICD-11 / SNOMED CT, PubMed BERT, HIPAA
proj-3: E-Commerce Visual Search	Multimodal CV	42,000	0.82 CLIP Score, 14,000 SKUs, Zero-shot, Segment Anything
proj-4: Financial Fraud Risk	Tabular / Risk	12,000	128 Transaction Signals, 1:10,000 Imbalance, Isolation Forest
proj-5: Robotics Spatial Grasping (3D Point Cloud)	3D Point Cloud	30,000	100,000 Pts/Frame, XYZ+RGB+Intensity, 6-DoF, 2.5mm Margin

3. Complete Codebase Repository (Line-Preserving Source Formatting)

Below is the complete, unabridged source code formatted cleanly by line to prevent token wrapping.

3.1 styles.css (Dark Minimalist CSS Design System)
